

SEBASTIAN OSPINA GUEVARA

Armenia, Quindío, Colombia · +57 319 438 4063 · sebasospinag@gmail.com · linkedin.com/in/sebastian-ospina-guevara-773560245

EDUCATION

Universidad EAM

B.S. in Software Engineering — completed 8 of 10 semesters

Armenia, Quindío, Colombia

2018 – 2024

PROFESSIONAL EXPERIENCE

Atomo Gaming

Full-Stack Developer

Armenia, Quindío, Colombia

February 2026 – Present

- Built Zenit Integrity from the ground up as part of a two-person team: a platform that monitors odds from 5 bookmakers in real time and flags patterns associated with match-fixing. It now holds 2.4 million odds records across 153,000 matches.
- Engineered its alert engine with 8 configurable rule types — sharp movement, divergence from market consensus, odds withdrawal, spread widening, and others — each with its own threshold, time window, and cooldown period; has issued 211,000 alerts to date.
- Implemented live websocket ingestion and browser streaming via Server-Sent Events, plus a daily backfill process that completed 1,488 days of historical coverage.
- Designed the PostgreSQL schema with 19 versioned migrations (Alembic) and containerized the application with Docker for Kubernetes deployment.
- Built, paired with one other developer, Zenit — the platform the support team uses to look up player accounts, process withdrawals across four payment gateways, and audit casino sessions — and Zenit Informes, which consolidates operational reports for the Ecuador, Panama, and Guatemala brands by integrating with three external back offices.

Technologies: React 19, TypeScript, Flask, PostgreSQL, Docker, Kubernetes

Mela

Artificial Intelligence Developer

Remote

January 2025 – January 2026

- Automated customer service chatbots for 5 companies using low-code platforms on Microsoft Azure.
- Analyzed sales data — volume, conversations, and gross revenue — to produce the department's commercial tracking reports.

American School Way

Service Coordinator and Customer Support Lead

Armenia, Quindío, Colombia

June 2024 – January 2025

- Managed facility services across 2 campuses, coordinating vendors and maintenance.
- Delivered post-sales support to students, resolving academic and administrative issues.

Careto Digital

Web Developer and Digital Marketing Analyst

Armenia, Quindío, Colombia

April 2024 – July 2024

- Developed blogs and websites in HTML at a sustained output of 3 blogs per day.
- Designed and launched digital advertising campaigns, measuring performance with Google Analytics.

Computintas

Computer Support Technician

Armenia, Quindío, Colombia

December 2023 – April 2024

- Diagnosed and repaired printers and computer equipment, servicing an average of 3 to 4 printers per day.

CERTIFICATIONS

Artificial Intelligence Programming (introductory) — 2025

Facebook Ads Campaign Creation — 2022

English, CEFR Level B1 — 2018

Multimedia Design and Integration — 2017

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, Java, C++, SQL, HTML, CSS

Frontend: React 19, Angular, Vite, Tailwind CSS, React Router, Recharts

Backend: Flask, NestJS, .NET, REST APIs, WebSockets, Server-Sent Events

Databases: PostgreSQL, SQLAlchemy, Alembic, schema design and migrations

Data: pandas, Excel, Google Analytics

Testing and Quality: pytest, Vitest, ESLint, merge-request code review

Infrastructure: Docker, Kubernetes, Nginx, Git, GitLab CI

Other Platforms: Microsoft Azure, Unity

LANGUAGES

Spanish: Native

English: Intermediate (CEFR B1, certified 2018)
